Software Engineer with 2 years of experience in Backend Development, Data Science, AI, ML and NLP. Expertise in fine-tuning LLMs, Generative AI and building RAG solutions. Studied Data Science at IIT Madras.

Work Experience

Associate Software Engineer

07/2023 – Present

Electronics for Imaging

Bangalore, India

- Built an audio fingerprinting solution to identify ads played on commercial stations like TV, etc.
- Developed vector database solution for superior image and text search experience.
- Built RAG based chat solution using Mistral-7B LLM, trained on company data for Question and Answering.

Data Scientist, Intern

01/2023 – 07/2023

Electronics for Imaging

Bangalore, India

- Improved efficiency by developing a pipeline to eliminate manual labour in text extraction.
- Created realistic conversational dataset to amplify accuracy of text classification model.
- Built cost-effective solution for creating product mockups using ImageMagick & Node.js/Python, surpassing results of expensive Photoshop APIs hence saving significant costs for the company.

Fullstack Developer, Intern

07/2022 – 12/2022

Corteva Agriscience

Hyderabad, India

- Improved Flask codebase, resulting in 15% faster AutoML job triggering on Kubernetes.
- Led migration of refactoring of Flask monolith to scalable APIs, improving scalability and reduced deployment time by around 10%

Education

Indian Institute of Technology Madras

12/2020 – 09/2024

Bachelor of Science, *Data Science and Applications*

University of Calcutta

08/2016 – 03/2019

Bachelor of Technology, *Electronics and Communications Engineering*

Projects and Blogs

FieryGPT

Python, PyTorch, Ollama, llama.cpp, Mistral-7B, FastAPI, Node.js, Vue.js

- Engineered a retrieval-augmented generation LLM, integrating company data from vector databases for contextualized responses.
- Implemented innovative LLM architecture, optimizing information retrieval and generation for enhanced organizational knowledge utilization.

Skills

Language proficiency

- Python, JavaScript, TypeScript, C, C++, Rust, HTML, CSS

Web technologies

- Node.js, Express.js, Vue, Angular, FastAPI, Flask

Data Science & Machine Learning

- NumPy, Pandas, scikit-learn, Pytorch, HuggingFace

Databases and Tools

- Vector database, MySQL, Docker, Git, Linux
